A passionate Full-Stack Engineer currently gaining hands-on experience in building scalable web applications while pursuing my part-time MSc.

Second class honours and an 82% final-year project score in my BSc degree, I have built a strong foundation in software development and problem-solving. I love tackling challenges, eager to learn, contribute, and create impactful solutions. Want To Know More:-  [portfolio](#) 

## EXPERIENCE

**Rotational Development Associate, Technology** July 2024 - Present  
Northern Trust, Limerick, Ireland

- Developing a microservices-based platform using Kubernetes for global banking, handling multi-currency/time zone fund management and investor management
- Integrating new functionalities with legacy systems for seamless two-way synchronization
