OBJECTIVES

A passionate Full-Stack Engineer currently gaining hands-on experience in building scalable web applications while pursuing my MSc part-time. With a 2:1 Honours Degree and an 82% final-year project score, I have a strong foundation in software development and problem-solving. I love tackling challenges, eager to learn, contribute, and create impactful solutions.

EDUCATION

Artificial Intelligence, MSc	**Computer Science and Software Engineering, BSc**	**Post-Primary School**
Limerick University	Maynooth University	Rath-Dara Community College
2024 – 2026	2019 – 2023	2013 – 2019
(Part time)	(Appendix for results available on request)	Leaving certificate

COMPUTING SKILLS

Java | HTML | C# | ReactJS | CSS
Azure DevOps | Python | Git | CI/CD
Spring Boot | NodeJs | Firebase | TypeScript | Bootstrap

PROJECT WORK

Kake WebApp | Maynooth University Final Year Project   Oct 2022 – May 2023

Outline: Full Stack Development for a cake/dessert start up business Kake.

Key Skills attained:

• TypeScript & React, DB Queries, DB Collections, private routing, API requests.

• Database management systems Firebase / Google Analytics.

• Strategic planning (plan the design, development & implementation phases).

• Time management skills, constant progress tracking with supervisor bi-weekly meetings..

• Working with Web Hosting platforms, API development, git & GitHub for version control systems.

Weather App | Personal   Apr 2024 – May 2024

Outline: Vite+React webApp for live weather forecast using openweathermap API.

Key Features :

• The Weather WebApp seamlessly integrates with the OpenWeatherMap API, providing users with live weather data, forecasts, and essential information such as temperature, humidity, & wind speed.

• The project offers a sleek and intuitive user interface, featuring responsive layouts, interactive elements, and customisable dark/light modes to enhance user engagement and accessibility..

• Leveraging geolocation capabilities, the app automatically fetches the user's coordinates for personalised weather updates, while also allowing manual location input.

EMPLOYMENT

Rotational Development Associate - Technology | Northern Trust July 2024 – Current

- Developing a microservices-based platform using Kubernetes for global banking, handling multi-currency/time zone fund management and investor management
- Integrating new functionalities with legacy systems for seamless two-way synchronization
- Java, JavaScript, Spring Boot, GitHub Actions, and Azure DevOps for efficient software development

Contingent Worker | Securitas / (Meta Data Center) Jan 2024 – June 2024

- Maintain documentation and follow standardised procedures
- Identify security gaps throughout the organization and propose enhancements
- Responds to critical events & alarms throughout the facility at the direction of the Control Room

Technical Support Specialist | Accenture July 2022 – Sept 2022

- Troubleshooting and helping resolve technical issues
- Providing education on new features and product updates
- Escalating issues providing all relevant information & striving to resolve them in a timely manner
- Coach and provide direction to new joiners
- Proficient on the client's platform (YouTube)

Front-end Development | Brainnest May 2022 – June 2022

- Creating real, working websites 9Business oriented projects)
- Providing support with client tokens
- Html, CSS, JavaScript

Student Support Engineer | Valeo Feb 2022 – Apr 2022

- Supporting Process & Methods Engineers
- Supporting initiatives to improve process/equipment performance
- Providing support to production - TRP & TLR targets
- Feedback to the relevant process Engineers – Issues & Performance

VOLUNTEERING

Coordinator/Volunteer | Business in the community Ireland 2024 - 2025

- Organised two BITCI programs - "Time to Read" for 2nd class pupils and a "Mentoring Program" for 6th-year students – Books sponsored by 'An Post'
