Critical Thinker | REST APIs | Firebase | ReactJS | UNIX | Problem Solver

PROJECT WORK

Kake WebApp | Maynooth University Final Year Project   Oct 2022 – May 2023

Outline: Full Stack Development for a cake/dessert start up business Kake.

Key Skills attained:

• Front-end, Back-end Languages & Frameworks: html, js, css, TypeScript & React.

• Database management systems Firebase with version control systems such as GitHub.

• Strategic planning (plan the design, development & implementation phases).

• Time management skills, constant progress tracking with supervisor weekly meetings etc..

• Working with Web Hosting platforms, API development, servers…

Weather App | Personal   Apr 2024 – May 2024

Outline: Vite+React webApp for live weather forecast using openweathermap API.

Key Features :

• The Weather WebApp seamlessly integrates with the OpenWeatherMap API, providing users with live weather data, forecasts, and essential information such as temperature, humidity, & wind speed.

• The project offers a sleek and intuitive user interface, featuring responsive layouts, interactive elements, and customizable dark/light modes to enhance user engagement and accessibility..

• Leveraging geolocation capabilities, the app automatically fetches the user's coordinates for personalized weather updates, while also allowing manual location input.
